

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently Amended) A business form label combination comprising;  
a substrate having first and second faces, each of said first and second faces  
having a central portion and a perimeter portion;  
one of said first and second faces having a first area for receiving indicia and  
another of said first and second faces having a second area capable of receiving an  
adhesive, said second area having a central portion and a perimeter portion;  
a first pattern of adhesive applied to one of said first and second faces in said  
second area;  
a second pattern of adhesive applied to said one of said first and second faces in  
said second area, said second pattern of adhesive disposed substantially adjacent said first  
pattern of adhesive such that first and second patterns of adhesives are provided in a stair  
step configuration; and  
said second area having an adhesive free area extending about said perimeter  
portion.
2. (Original) A business form label combination as recited in claim 1,  
wherein said adhesive free area is confined to said perimeter portion of said second face  
such that said first area remains substantially free of adhesive.
3. (Original) A business form label combination as recited in claim 1,  
wherein each of said first and second patterns has a different thickness.
4. (Original) A business form label combination as recited in claim 1,  
wherein said first and second patterns of adhesive is selected from a group including  
permanent adhesives, removable adhesives, repositionable adhesives and combinations  
thereof.

5. (Original) A business form label combination as recited in claim 1, wherein said first and second adhesive have at least first and second properties that are distinct from one another.

6. (Original) A business form label combination as recited in claim 1, wherein said label is suitable for use in contaminated, discontinuous surfaces and combinations thereof.

7. (Cancelled).

8. (Original) A business form and label combination as recited in claim 5, wherein the first and second properties are adhesive types.

9. (Original) A business form label combination as recited in claim 5, wherein said first and second properties are coat weights.

10. (Original) A business form label combination as recited in claim 5, wherein said first and second properties are different peel strengths.

11. (Original) A label as recited in claim 6, wherein said contaminated environments, discontinuous surfaces are selected from a group including, structural or composite corners, wood, burlap, furniture, steel, corrugated materials, manhole covers, cast iron, pig iron, foundry work, concrete, automobile and vehicle tires, logs, inner tubes, rubber pipes and hoses, automotive, vehicle components and combinations thereof.

12-27. (Cancelled).

29. (New) A business form label combination comprising;  
a substrate having first and second faces, each of said first and second faces  
having a central portion and a perimeter portion;  
one of said first and second faces having a first area for receiving indicia and  
another of said first and second faces having a second area capable of receiving an  
adhesive, said second area having a central portion and a perimeter portion;  
a first pattern of adhesive applied to one of said first and second faces in said  
second area;  
a second pattern of adhesive applied to said one of said first and second faces in  
said second area, said second pattern of adhesive juxtaposed over said first pattern of  
adhesive; and  
wherein said first and second adhesive have distinct coat weights.

30. (New) A business form label combination comprising;  
a substrate having first and second faces, each of said first and second faces  
having a central portion and a perimeter portion;  
one of said first and second faces having a first area for receiving indicia and  
another of said first and second faces having a second area capable of receiving an  
adhesive, said second area having a central portion and a perimeter portion;  
a first pattern of adhesive applied to one of said first and second faces in said  
second area;  
a second pattern of adhesive applied to said one of said first and second faces in  
said second area, said second pattern of adhesive juxtaposed over said first pattern of  
adhesive; and  
wherein said first and second patterns of adhesives are provided in a stair step  
configuration
